

PRANVEER SINGH INSTITUTE OF TECHNOLOGY

B.Tech Computer Science and Engineering — Semester Examination Simulation

SUBJECT: WEB TECHNOLOGY

Paper Set:	Set 01	Duration:	3 Hours
Maximum Marks:	100 Marks	Date:	September 2026

SECTION A

Answer all questions in brief. (10 x 2 = 20 Marks)

- Q1(a).** Define Attribute and state its key application in computer systems. [2M]
- Q1(b).** What is the primary significance of Class? Explain in brief. [2M]
- Q1(c).** State the fundamental principles governing Creating Style Sheet. [2M]
- Q1(d).** Write down the basic properties or conditions required for Tables. [2M]
- Q1(e).** Differentiate in brief between CSS Properties and Working with Block Elements and Objects. [2M]
- Q1(f).** List any two advantages and limitations of Working with Block Elements and Objects. [2M]
- Q1(g).** Give a real-world example illustrating Padding. [2M]
- Q1(h).** Define CSS Styling and state its key application in computer systems. [2M]
- Q1(i).** What is the primary significance of And Block Elements? Explain in brief. [2M]
- Q1(j).** State the fundamental principles governing Attribute. [2M]

SECTION B

Attempt any three of the following questions. (3 x 10 = 30 Marks)

- Q2.** Explain Class in detail with suitable architectural diagrams and examples. [10M]
- Q3.** Discuss the algorithmic approach for Creating Style Sheet. Analyze its time and space complexity. [10M]
- Q4.** Compare and contrast Tables with CSS Properties. Highlight performance trade-offs. [10M]
- Q5.** Design a solution using CSS Properties for an enterprise system and trace each step. [10M]
- Q6.** Explain the theoretical foundation of Working with Block Elements and Objects and prove its correctness. [10M]

SECTION C

Attempt any five questions from this section. (5 x 10 = 50 Marks)

- Q5.** Explain Padding in detail with suitable architectural diagrams and examples. [10M]
- Q6.** Discuss the algorithmic approach for CSS Styling. Analyze its time and space complexity. [10M]
- Q7.** Compare and contrast And Block Elements with Attribute. Highlight performance trade-offs. [10M]
- Q8.** Design a solution using Attribute for an enterprise system and trace each step. [10M]
- Q9.** Explain the theoretical foundation of Class and prove its correctness. [10M]

Q10. Write a step-by-step algorithm or procedure for Creating Style Sheet with illustrative inputs.

[10M]

Q11. Discuss the various challenges encountered in Tables and how they are mitigated.

[10M]
